Dear Sirs,

The Ministry of Transport of the Republic of Latvia hereby informs that Latvian parliament Saeima has adopted **amendments of the Law on the Road User Charge** which will be applied as of 1st January, 2017.

The abovementioned amendments foresee several changes in existing legislation according to which:

- No exemptions from road user charge will be further applicable to vehicles, which in accordance with regulatory enactments are exempted from installing work and rest time recording equipment (tachographs);
- Henceforth road user charge shall be paid also for the use of:
 - the section of state main road A12 Jēkabpils – Rēzekne – Ludza – Russian border (Terehova) from km 124.10 to km 159.2;
 - the section of regional road P5 Ulbroka – Ogre from km 0.00 to km 19.9;
 - the section of regional road P80 Tīnūži – Koknese from km 0.00 to km 63.60;
- For vehicles with the maximum total laden weight of more than 3000 kg and which are intended or used for the carriage of goods by road shall be paid the following road user charges:
 - daily rate – EUR 6;

daily rate – EUR 14;
monthly rate – EUR 28;
yearly rate – EUR 300.

In order to facilitate the use of environmentally friendly vehicles, road user charge rates are increased by 10% for vehicles and their components with the maximum total laden weight more than 3500 kg and with EURO 0, EURO I, EURO II emission limits of the vehicle engine.

Updated information on changes in road user charge regulation in Latvia will be soon available also on webpage <https://www.lv vignette.eu/>.

We would be most grateful, if you could forward the said information to the road transport operators of your country.

Please find attached official letters in English and Russian languages.
